

Connecting Lives, Sharing Cultures

Host an AFS high school exchange student!

Greater Illinois AFS volunteers are seeking host families - *families like yours* – that are curious about the world and ready to build a life-long friendship with a high school exchange student! We're looking for families of all types, single parents, couples with young children, or no children...all can host. Host families provide shelter, a bed, food, & loving support to a student who arrives with health insurance and spending money.

Will you be that person, that family, who makes a world of difference in the life of a young person and broadens your family's understanding of the world?

To learn more information about students coming to your area who are available to host, and to read the letter they've written to their potential host family just [CLICK!](#)
